

FUNKIMAT

Feeder for weaners and finishers
– can dose feed in small amounts

- Minimal feed waste.
- Most precise feed adjustment.
- Low maintenance costs.
- Can be 100% optimized for both flour and pellet feed.
- Long durability.
- Good separation between water and feed.
- Large feeding area / surface.
- Wide adjustment options to minimize feed waste

Components for modern pig production

100 L

MOST PRECISE FEED ADJUSTMENT AND MINIMAL FEED WASTE

FUNKIMAT is made of stainless steel to ensure durability. It is an option to place the feeder independently in the pen, when adding two posts. The feed containers are designed to ensure optimum volume utilization and allow filling from a low height. They are waterproof for sprinkling and prepared for automatic filling from up to three feed circuits.

Dispensing unit with reversible plate. The plate can be turned to use pellets or flour.

ACCESSORIES

0227-088	Dosage disc ver. 3
0227-309	Dosage disc ver. 4 small
0227-370	Ratainer spring for dosage device, stainless steel funkimat ver. 2
38524	Mounting kit for u-post against feeders
0227-440	Dosage device for Funkimat, assembled
0227-438	Lower stainless funnel ver. 3
0227-558	Floor plate for double Funkimat and 3NI Roto 10x1200x1200 mm, LDPE structure for under feeders
0227-559	Floor plate for single Funkimat and 3NI Roto 10x670x1200 mm, LDPE structure for under feeders
0228-276	Stainless steel post for feeder
0227-274	Solid post for feed dispenser, 950 mm
0227-150	Stainless steel trough foot adjustable for feeder
12100107	Tilt valve 1/2" stainless steel type 13, drinking valve
0227-580	Water connecting for singel feeder 10 mm aquaspeed with 1/2" outside thread
0227-587	Hanger for feeding pipe
0227-579	Water connecting for double feeders, 10mm aquaspeed with 1/2" outside thread
0227-597	Hanger for feeding pipe, double feeders
