

TURBOMAX

Fresh water and dry feed
for pigs 7–120 kg

- 3-part trough, which separates water and feed
- Intuitive to use for the pigs
- The pigs must activate the feeding themselves,
- thereby stimulating their activity needs
- Access to the trough from both sides of the feeder

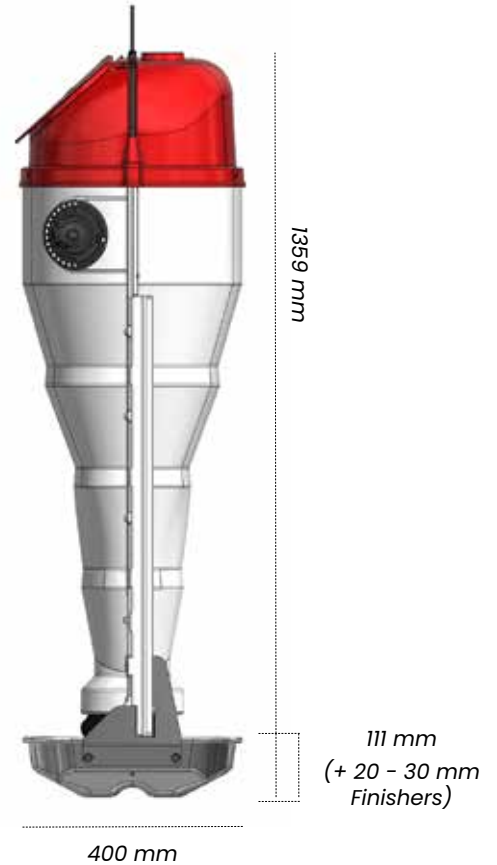

Components for modern pig production

FRESH WATER AND DRY FEED FOR PIGS 7-120 KG

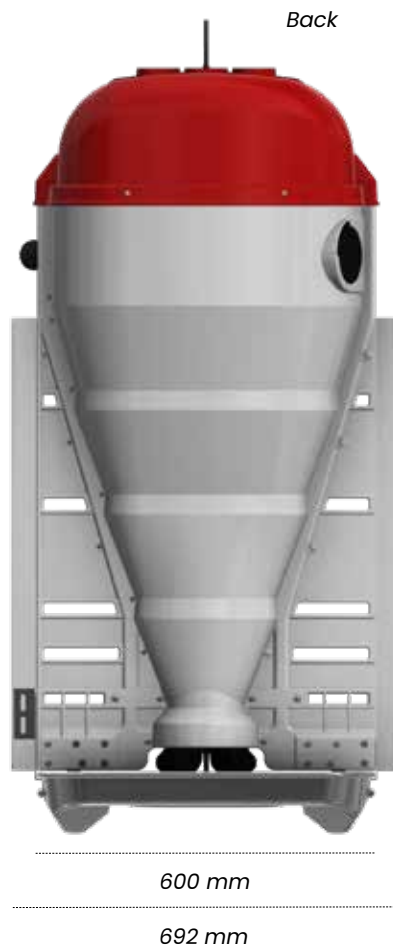

Our innovative feeder TURBOMAX has an increased feed capacity of 30%. The feeding principle considers the pigs' natural manipulation behavior, as the pigs have to activate the feeder to get feed. Consequently, the trough is cleaned and free of feed residues, which helps to keep a high level of hygiene. The TURBOMAX hopper is shaped to prevent bridging. The trough has double drinking bowls, allowing the pigs to choose water or dry feed. Taking water and feed at the same time also reduces stress in the group.

WEANERS (7 - 30 KG)	560180M	Assembled
	560180U	Unassembled
FINISHERS (30 - 120 KG)	560185M	Assembled
	560185U	Unassembled
Capacity per feeder: 30 - 50 pigs (5 - 120 kg). Volume: 100 L		

100 L

Easy setting and quick adjustment. 15 settings allow for accurate dosing. Can be adjusted so that the pigs get the optimal amount of feed

Connected to the adjustment lever. This ensures that the set dosage is clearly visible on both sides of the dispenser.

WELL-THOUGHT-OUT TROUGH AND SPECIALLY DESIGNED FEEDING FUNCTION

- 3-part trough, which separates water and feed
- Intuitive to use for the pigs
- The pigs must activate the feeding themselves, thereby stimulating their activity needs
- Access to the trough from both sides of the feeder
