## Other terms

### Mounting

Mounting is only performed at a fixed price if the mounting site is empty, cleaned up and in an already prepared condition. It is the responsibility of the Buyer to place the material closest possible to the mounting site and to ensure an acceptable accessibility of the mounting site, in accordance with the assessment of Service and Mounting department.

If mounting coincides with other on site work performed by third party, mounting is carried out at an hourly payment rate.

All water installations end by the end of the row or on the inside of the section, except when otherwise specifically stated in the order confirmation.

When Buyer self is responsible for mounting, all adjustments to the equipment are at own risk (pipes, board profiles etc.) regardless of any acquired supervision from ACO FUNKI A/S.

Self-supporting cast iron

Due to production method fluctuations in dimensions and sizes may occur. As a result, the product may be uneven.

None of these fluctuations are of any significant importance to the product functionality. Cast iron slats are only intended for pigs and should not be exposed to any other strain.

ACO FUNKI A/S does not accept complaints on water valves used at a working pressure above 3 bar.
